Professional Summary

I drop out of college as Network Administration major (Cisco, Network+, etc) finding it a bit boring. I stumbled around the US building websites for small business using all-in-one solution such as Squarespace, Wix, Shopify. However I wasn't satisfied with the modification level of those services so I decided to take up everything I need to learn about the web. For the past year I have been teaching myself coding and building web application on FreeCodeCamp and Green Academy code bootcamp.

Education

09/2014-09/2016

Seattle Central College , Seattle, US
Network Administration

10/2019-11/2020

Green Academy, HCM, VN
- Fullstack-developer
- Android Developer
